December 18, 1996

Mr. Joseph Marsilio
P & M Realty Inc.
15 Hawthorne Drive
Monroe, CT 06468

Dear Mr. Marsilio:

On November 14, 1996, the United States Environmental Protection Agency (EPA) New England office completed its assessment of Bridgeport Name Plate, Inc. located at 585 Fan Hill Road in Monroe, Connecticut (EPA Identification Number: CTD011184272). The Agency determined that a "No Further Remedial Action Planned" (NFRAP) decision is appropriate for this site.

The purpose of this letter is to provide you with formal notification of EPA New England's decision, and to clarify for you a recent change in the EPA policy regarding the "No Further Remedial Action Planned" or NFRAP decision.

The NFRAP decision means that no further work is anticipated at this site by the federal Superfund Site Assessment program. Sites receive a NFRAP decision when the federal Superfund Site Assessment program has completed its assessment of a site, and has determined that, based upon the information available, no further steps will be taken to list a site on the National Priorities List (NPL).

The NFRAP decision does not necessarily mean that there is no hazard associated with this site; it means only that based upon currently available information, this site is not judged to be a potential NPL site. Sites assigned NFRAP decisions are now being removed from EPA's Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) database, and archived as historical records to ensure EPA does not needlessly repeat the investigations in the future.

Further actions may be taken at sites with NFRAP decisions by the Superfund Removal program, other EPA or federal programs, or by state and local programs. You may wish to contact the state to verify the status of your property with regard to state authorities. The contact for the Connecticut Department of Environmental Protection is Mr. Doug Zimmerman who may be reached at (860) 424-3800.

Finally, NFRAP decisions may be changed based upon new information or other considerations which make a recommendation for NPL listing appropriate at a later time. In such an instance, you will be notified and the site will be returned to the CERCLIS database with the NFRAP decision removed.
